

# Efficiency

## Powerful, Affordable Technology for Running Your Organization More Efficiently and Profitably

There's no question: Successfully running a business—especially one that provides services to the ever-volatile oil and gas industry—is a demanding job these days. You need to access powerful information for fact-based decision making, move rapidly to embrace new opportunities, keep a close rein on costs and projects, squeeze additional productivity out of your staff—and much more.

Introducing a powerful, affordable Microsoft Dynamics® software system that can help you achieve all these goals—and ensure the continued success of your organization. This solution, brought to you by Microsoft® Gold Certified Partner Arctic Information Technology, is designed to meet the unique and diverse needs of organizations that serve the oil and gas industry.

Microsoft Dynamics is a complete solution for managing virtually every area of your business—from effortlessly developing rich financials with streamlined billing and purchasing processes to efficiently managing employees and running projects more smoothly. With Microsoft Dynamics you'll spend more time running your company and serving your customers—and less time dealing with technology and cumbersome processes.

### A Complete Solution for Increased Business Success

Arctic IT provides a complete, Microsoft Dynamics-based solution to meet your unique business needs.

#### You benefit from:

- Robust tools for managing projects more efficiently.
- Up-to-the minute financial information through monitoring budgets and expenditures in real time.
- Powerful tools for efficiently managing HR and payroll functions.
- Streamlined processes for billing, requisitions and project management.
- Ease of obtaining financial and project information in many different, flexible formats.
- Ability to navigate throughout the solution with a familiar, easy-to-understand interface.
- Easy customization of screens and reports so that they work the same way your organization does.
- Empowered employees through anytime, anywhere access to web-based critical data and business processes.

#### Key Benefits

- ▶ Enjoy accurate, up-to-the minute financial information with robust financial tools to closely monitor profitability and costs, report efficiently across the organization and develop comprehensive forecasts and “what if” scenarios.
- ▶ Streamline HR and payroll processes using powerful tools that allow you to electronically collect time sheets, monitor and manage employees more effectively and process payroll quickly and accurately.
- ▶ Manage projects efficiently by enabling you to monitor project performance, costs, revenues, labor and other resources. That means you can achieve outstanding results on budget, on time and with outstanding resource efficiency.
- ▶ Take control of project costs through powerful tools that provide you with accurate, current and accessible data about every costing detail related to a job. Information is easy to access and manage—delivering a comprehensive view of project profitability.
- ▶ Improve billing processes by enabling you to submit electronic invoices to your customers, which allows you to process transactions faster and speed up cash flow.
- ▶ Request products and services faster by using powerful, Web-based requisition tools that allow you to streamline your purchasing processes through electronic approval of purchases and electronic submission of purchase orders.

# Commitment

## Arctic IT: Dedicated to Helping You Reach “You-Can Territory”

For more than a decade Arctic IT has been a recognized leader in providing Microsoft Dynamics-based solutions to growing organizations. Our sole focus is on delivering high-quality advice and solutions that allow you to reach “You-Can Territory”—a place where your business runs smoothly, efficiently and, most importantly, profitably.

At Arctic IT, we understand that simply buying and deploying a piece of technology won't necessarily solve a business issue or help you achieve a specific goal. That's why we work closely with you to understand every aspect of your organization and processes before we make any recommendations. Then we use a proven implementation methodology to ensure that your solution investment meets your specific needs—both now and in the future.

### When you call on Arctic IT you benefit from:

- › **A one stop-shop for all your needs.** Our talented team of consultants is made up of two dynamic groups: One focused on business solutions and another focused on network solutions. So no matter what size your organization, we can provide a complete solution that's right for your unique situation. Plus our highly trained staff has years of experience and understands how to deliver the results you're seeking.
- › **A singular product focus.** Unlike many solution providers, we dedicate all our efforts to providing Microsoft products and solutions. This singular focus ensures that our staff is truly expert in the solution we sell, customize, implement and support—and that you receive only the finest customer service from us.
- › **Proven expertise.** Our dedication to not just meeting—but surpassing—our clients' expectations has helped us earn the prestigious Microsoft Gold Certified Partner status, the highest level possible. We've also been recognized with the Microsoft Customer Experience Award, Microsoft Payroll Excellence Award and the Microsoft PacWest General Manager Award.
- › **Outstanding training and support.** Our commitment to your success doesn't end once your Microsoft Dynamics solution is up and running. We back our software solutions with outstanding training and support, which helps you realize the benefits of your system for many years to come.
